

Stop snoring. Sleep better. Get aveoTSD®.

aveoTSD®
Tongue Stabilizing Device

**The brilliantly
simple solution for
problem snoring.**

aveoTSD®

How aveoTSD works

TONGUE

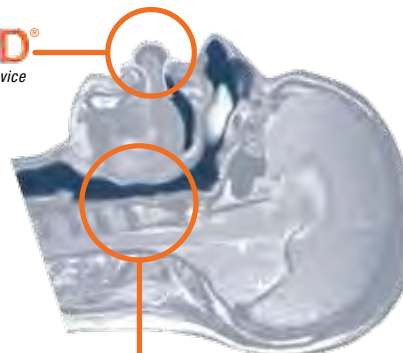

In this MRI* image, the tongue falls into the back of the airway as a person sleeps. This blocks the airway, leading to snoring.

*Magnetic Resonance Imaging

BLOCKED
AIRWAY

aveoTSD®
Tongue Stabilizing Device

This MRI image shows the aveoTSD holding the tongue gently forward. Note how the airway is now open and clear. This stops or greatly reduces snoring.
